### WOMEN AND CHILDREN PUT TO DEATH

Reports of Villages Burned and Massacres by Turks Continue to be Received—Beirut is Quiet at Present.

Sofia, Bulgaria, Sept. 11.—Revolutionary headquarters here have received from Burgas news of fearful atrocities committed by Turkish and Albanian soldiers in the village of Adrianople. A squadron of Turkish cavalry intercepted and slaughtered fugitives attempting to cross into Bulgaria. Sixty Bulgarians were killed within three kilometers of the frontier. The whole district of Losengrad is filled with Albanian troops, who are burning villages and massacring inhabitants. They have killed fifty persons and have slain fifteen others in the village of Kula, twenty-two old people in Evkeker, eighteen families at Taspeta, twenty families at Ahmadi. Eighty families fleeing from various villages toward the frontier have been literally cut to pieces by Turkish soldiers during the last few days.

A large body of infantry and cavalry with three mountain batteries attacked an insurgent band in the mountains above Vasilko. The insurgents awaited the approach of the troops and then hurled bombs at them. After two hours fighting the Turks were forced to retire with a loss of twenty killed and many wounded. Losses of insurgents slight.

The first indication of Greeks aiding Bulgarians against Turkey appears in a circular address by a general. The mixed population of Greeks and Bulgarians in fifteen villages of the district of Kostur have joined the insurrection.

Sofia, Bulgaria, Sept. 11.—Further details of villages burned and massacres committed in the village of Monastir have reached here from reliable sources. Names are given of thirty-four villages in the kaza of Okrida which have been burned by Turks. At Velgochti near Orakol, twelve men and women perished in the flames. Sixty persons were killed in this neighborhood, most of the bodies being left unburied. Nine villages and a large forest area have been burned in the kaza of Resen. At Podmochani and Pokovenik many women and children were killed. In the kaza of Prespa soldiers surrounded a forest in which women and children from villages of Loubino and Bratichino were concealed. They violated women and put many of them to death. The large number of bodies lying unburied and decomposing has caused an epidemic among Turkish troops, from which many have died.

Telegrams from Budapest announce the Austrian government has stopped the transport of 15,000,000 Mannlicher cartridges which Bulgaria contracted for in Hungary. In eastern Macedonia insurgents fought a band of Bash-Bazouks, killing eighty. The next day regular troops pursued the insurgents into a forest, but fell into ambush, in which many of them perished. Turkish artillery has utterly destroyed the village of Dobrovani, Monastir vilayet. Many of the inhabitants were killed.

Constantinople, Sept. 11.—Telegrams from Beirut state that the calm continues there. Nazim Pasha is acting with energy and has made many arrests and has expelled a score of suspected persons. Orders have been sent the governor of Lebanon to maintain a sharp lookout for refugees from Beirut and arrest all suspects. Minister Leishman's demand for the dismissal of Reshid Pasha, vail of Beirut, was supported by British, French and Italian ambassadors, and, owing to Reshid's powerful influence at the yildiz kiosk it needed much diplomatic pressure combined with the presence of the American squadron to secure acceptance of the demand.

### ATROCITIES DESCRIBED.

London, Sept. 11.—The Mail's correspondent at Monastir describes further atrocities by soldiers. In one case they flayed a little girl's head, while in another they dug the flesh from under a woman's arm with pocket knives in order to see the workings of her lungs.

A Constantinople dispatch to the Mail, dated Sept. 10, says the porte telegraphed Washington asking to have the American squadron recalled at Beirut, but the request was refused. Minister Leishman declared it would remain until the departure of the late vail, Reshid Pasha.

### AFFAIRS AT BEIRUT.

Washington, Sept. 11.—The following bulletin was posted at the navy department to day: "Admiral Cotton telegraphed from Beirut the governor general of Damascus was appointed acting governor of Beirut and expressed desire to settle the case of the American vice consul satisfactorily to the United States. Beirut is quiet, business improving and confidence increasing.

### TO WATCH SERVANS.

Salonica, Sept. 11.—Palace authorities acting upon information received from the Turkish minister at Belgrade telegraphed to the vail of Koshevo instructing him to guard the Serbian frontier more carefully because the Serbian revolutionary committee is holding meetings at many places, organizing bands, distributing

### BUT DRIFT IS TOWARD IMPROVEMENT

A Better Feeling as to Corn Crop is Manifest—Reports of Bradstreet and Dun as to Trade Conditions.

New York, Sept. 11.—Bradstreet's says: Trade conditions are still uneven, but the general drift is toward improvement. A more assured feeling as to the corn crop is manifest, conditions in most states having improved since Sept. 1. Eastern trade advices are of less notable character, but signs of improvement in the cotton mills situation are seen. Some heavy sale of print clothes and a number of mills have announced approaching early resumption of operations. The lumber market shows contrasts in different sections. In the west lumber and building material of all kinds is active and firm. The salmon pack on the Pacific coast will be a short one and higher prices are looked for. Collections show slight improvement, the result of crops moving to market. Backwardness of agricultural matters is no small factor in confirming buyers in the conservative attitude they have assumed in some sections.

Wheat, including flour, exports for the week, 3,045,000 bushels; against 5,444,000 the week last year. For ten weeks of the cereal year, 31,000,000 bushels; against 48,465,000 in 1902. Corn exports, \$45,000; against \$2,000 a year ago. For ten weeks of the present cereal year, 10,639,000 bushels; against 8,670,000 in 1902.

DUNN'S REPORT. Despite interruption of holiday the week has brought increased activity in many branches of business. An encouraging symptom is decreased complaint regarding collections, accompanied by more discounting of bills. Weather conditions have been favorable for retail trade and distribution of merchandise expanding, while there are frequent reports of larger jobbing fall business than last year. Some caution in selecting goods owing to high prices is reported at the west, but this is chiefly confined to textiles. Railway earnings in August was 9.1 per cent larger than last year; 15.4 per cent greater than in 1901. On Sept. 1 for the first time this year furnace stocks of pig iron exceeded the week's capacity of furnaces in blast, which is statistically evidence of quiet conditions now prevailing in the iron and steel industry. Agricultural implement makers have again purchased freely of material, some plow steel contracts covering deliveries for five years. New England manufacturers continue busy on fall and winter footwear and at many points it is difficult to secure sufficient labor. Prices of cotton goods are slow to reflect reaction in raw material and the demand is not improved.

### FALLURES THIS WEEK 172 IN THE UNITED STATES, AGAINST 265 LAST YEAR.

London, Sept. 11.—While details of havoc wrought by the storm yesterday are incomplete reports coming in from all parts of the United Kingdom show devastation was general and it is feared the loss of life was much greater than at first supposed. Lloyd's already report over fifty serious casualties to shipping. All sorts of vessels were caught in the gale and many foundered, several with their entire crews. A great number of minor craft is believed to be lost and bodies washed ashore continue to swell the terrible list of fatalities. The wind blew with a velocity, at times reaching seventy-two miles and this continued several hours. All coast towns suffered more or less and agricultural sections of the interior report incalculable damage. For some time telegraphic communication was completely stopped and the land lines are still interrupted. In addition to deaths from drowning, reports from inland give many fatalities resulting from various causes incident to the storm.

Eldorado, Kan., Sept. 11.—A car load of powder set on a Frisco siding near Beaumont by a freight crew, which did not want to handle it while switching, got beyond control and ran several miles on a branch line towards Winfield, colliding with a train that had just left the station and exploded. The engineer and fireman were killed and two others injured. The explosion shook the ground for miles around. People in Eldorado ran from houses, fearing an earthquake.

The contest for the Dryden trophy was the last of team contests. The only other firing done to day was in individual competitions, none of which have been concluded.

## NAMES OF INDICTED OFFICIALS

SIX OF THE SEVEN ARE MADE PUBLIC.

All Indictments Relate to Transactions in Furnishing the Government Various Postal Devices.

Washington, Sept. 11.—United States District Attorney Beach to day announced six persons in the seven indictments returned by the grand jury Tuesday are: George W. Beavers, former chief of division of salaries and allowances of post-office department; August W. Machen, former general superintendent of free delivery system; James W. Erwin, former postoffice inspector, headquarters at San Francisco; George H. Huntington and Isaac S. McGiehan, both of New York city, owners of the Columbia Supply company of that city, and Eugene B. Scheble, of Toledo, a dentist and interested in the firm of Maybury & Ellis, Detroit letter box manufacturers. Beavers, Machen and Erwin are named jointly in one indictment for conspiracy to defraud the United States. Another indictment is against McGiehan, Huntington and Machen for conspiracy to defraud the United States. Still another is against the same three for conspiracy to commit bribery. Scheble and Machen are indicted jointly for conspiracy against the United States and again for conspiracy against the United States and one against McGiehan and Huntington is for bribery.

All indictments are based on transactions relating to supply letter boxes, package boxes and devices. Some sensational charges are made. The indictment against Beavers, Machen and Erwin alleges a postal service and improvement company of San Francisco was composed almost entirely of western postal employees; that in 1889 it set aside 1,000 shares of stock for "forwarding its interests." And armed with this authority its president, Daniel Richardson, and Inspector Erwin came to Washington, saw Beavers, Machen, Hecht and others and got an order for equipping 2,689 letter boxes with their device. The indictment says the company systematically was relieved of its obligations in the way of paying freight, crating, painting and printing cards for the devices it furnished. The indictment charges Beavers and Machen owned stock under assumed names. Most of the 1,000 shares of stock set aside, the indictment says, went to different post-office officials and again President Richardson came to Washington and following increase in contract price he got for the company dividends were paid on stock.

McGiehan, the principal owner of the Columbia Supply company of New York, is charged with agreeing to pay Machen 50 cents for each \$1.25 paid on a package box contract by the government. Scheble became interested in the firm, of which Mayor Maybury, of Detroit, is a member, and which furnished letter boxes to the government and Scheble and Machen in the joint indictment it is alleged schemed to defraud the government by supplying an excessive quantity of boxes. The indictment says Maybury and Ellis paid Scheble to the extent of the latter's interest in the company and that he in turn paid a large sum to Machen. In seventeen counts the indictment cites specific payments to Machen by Scheble. Other indictments involve practically similar transactions. Montague, whose name figures in the Montague Indicator and Letter Box company, is postmaster of San Francisco.

An official statement concerning the postoffice indictments given out to night, confirms the statement published on authority of United States District Attorney Beach to day.

## ARMY OFFICERS SENTENCED.

Manila, Sept. 11.—Custom Inspector Thomas P. Cates and Lieutenant Osborne, constabulary supply officer, both stationed at San Bernardo, arrested recently on charge of misappropriating government funds, have been convicted of the crime. ## HARTFORD RACES

Dan Patch Failed to Lower Star Pointer's Record—Winners of Various Events.

Hartford, Conn., Sept. 11.—In a battle against time, handicapped by a heavy wind and unsatisfactory track, Dan Patch failed at Charter Oak Park to day to break the record made there two years ago by Star Pointer in two miles flat. The wonderful horse, however, went a mile in 2:01, doing the last quarter in 29. Time by quarters: 31, 1:01, 1:31½, last quarter 29½, mile 2:01.

Of other events of the closing day the meet, the 2:07 trot furnished the most excitement. Dan T after finishing fourth in the first heat, took the next two in succession.

## AFTER LOU DILLON

Major Delmar Tries a Mile in 2:00½ at Syracuse

Syracuse, Sept. 11.—With turf conditions estimated to make the course a good half second slower than on Wednesday, when he established a new world's trotting record for geldings of 2:01½, Major Delmar went a mile on the state fair ground this afternoon in 2:00½, lowering his previous record ¼ seconds. Lou Dillon, the 2-minute trotter, alone stands between Major Delmar and the world's trotting record and that by only a quarter of a second. Delmar broke twice, first at the eighth and then at the quarter, but got away the third attempt. The first quarter was reached in 0:31¼; the gelding faltered slightly, but soon recovered himself and passed the half in 1:01. The third was made in 0:29. Coming into the stretch McDonald gave Delmar a light touch with the whip and the gelding responded with a magnificent spurt, which brought him under the wire in 2:00½.

## POLISH CATHOLICS

Rome, Sept. 11.—The pope to day received most cordially in private audience a delegation from the Polish Catholic congress of America, composed of Fr. Wencleslaus Kruzka, of Ripon, Wis., and Roland B. Mahany, of Buffalo. The delegation presented a pamphlet setting forth the wishes of Polish Americans, which consisted mainly of having representatives of their nationality in the Catholic hierarchy in the United States, it being pointed out that while German Catholics, numbering 3,000,000, have thirteen bishops and two archbishops, the Poles, numbering 2,000,000, have none. The pope gave the delegation satisfactory assurances.

## VENEZUELAN ARE ANGRY

DENOUNCE DECISIONS OF ARBITRATORS.

Violence of the Press is Without Precedent—Term Decisions of Tribunal a Joke and Members Branded as Robbers.

Willemstad, Curocon, Sept. 11.—Decisions in the cases of big claims against Venezuela presented to mixed tribunals began to be rendered yesterday. The Dutch and Belgian arbitrators and Venezuelan umpire delivered judgment condemning Venezuela to pay the Belgian company owning the Caracas water works \$2,000,000. Notwithstanding the fact the meeting of the tribunals was declared to be secret the Venezuelan government immediately divulged its decision everywhere and also started semi-official press complaining against Dr. Filz, Dutch arbitrator, who is former president of the high court of the Dutch West Indies, and other arbitrators, who are characterized as robbers worthy of hanging. The violence of the press is without precedent going so far as to say the government will not accept the judgment.

The newspaper Pregonero says: "We are Venezuelans. We will not accept these impositions. The decisions of the arbitrators are a joke. Do these old gentlemen suppose Venezuela is a country of savages, in which they can slash right and left. It is necessary they should know they have a people before them and General Castro, head of the executive power, who will not accept such treatment. Know this, you umpires and commissioners, and the sooner you know it the better it will be for you. You believe we are lambs, not having seen our claws; we are tigers and lions. Therefore, beware!"

The El Combate says: "How long will these humiliations last. Down with foreign extortioners and let us hold up high and firm our national dignity and integrity. Long live Venezuela!"

The La Religion, a Catholic organ, accuses the United States of hypocritical diplomacy.

**CAIRO'S MAYOR ARRESTED.**

Together with Prominent Physician, He is Charged with Violating Law Regarding Resorts.

Cairo, Ill., Sept. 11.—Claude Winter, mayor of Cairo, and Dr. E. E. Gordon, a prominent physician of this city, were arrested last night charged with violating the state law against licensing resorts. This morning they appeared in the Alexander county court before Judge Dewey and gave bond in the sum of \$500 for their appearance on Sept. 21.

When Marion C. Wright was mayor of Cairo he closed all resorts in Cairo. This action became an issue in the municipal campaign last spring, and while Claude Winter was silent on the subject, his opponents charged him with favoring the return of that class of people. Soon after he took office they returned and the system of inspection was established, and inmates were charged \$1 for each examination.

The board of health investigated the matter, and when questioned by them Mayor Winter assumed the responsibility for the transaction. The charge was then brought by Aldermen Meehan and Fuller and the state's attorney swore out the information that led to the arrests.

**Epidemic of Scarlet Fever Raging at Viden.**

The opening of the Viden schools may come to an untimely close—that is the subject much discussed. An epidemic of scarlet fever has broken out in that city, and up to date fifteen cases had been reported. In some of the cases quarantine has been established, but in others no such action has been taken, because the attending physician failed to report the same to the authorities. Up to Tuesday night three fatal cases had been reported, the last one being that of an infant of Mr. and Mrs. C. L. Davidson. This is the second child of theirs to die with this disease within eight days. The disease seems to be in a very malignant form, complicated with diphtheria. An 8-year-old child of Mr. and Mrs. Hardy has also died from the disease.

**ABOLISH RATES.**

Chicago, Sept. 11.—Railroads composing the Central Passenger association have decided to discontinue the practice of granting rates for merchants' meetings which are now held in nearly every large center of the country. Territory covered by the lines extends east of Chicago to Pittsburgh and Buffalo on the east and north of the Ohio river.

A resolution, which was adopted at the monthly meeting of the association today, is to the effect that in granting reduced rates the railroads are discriminating against the small cities and in favor of the large distributing centers. The largest organization which will be affected is the National Association of Merchants and Travelers, having headquarters in Chicago, a membership of over 50,000, and branches in twenty states. This association holds four meetings annually in Chicago, which are attended by between 2,000 and 3,000 merchants. Similar meetings are held in St. Louis, Kansas City, Omaha, New York, Cincinnati, Cleveland, Minneapolis, St. Paul, Milwaukee, Des Moines, Quincy, Keokuk and Pittsburg.

**STUDENT IS DECLARED SANE.**

Du Quoin, Ill., Sept. 11.—Physicians attending Oliver C. Davis, the young Northwestern university athlete who, it was reported, had gone insane because of over-indulgence in athletics, declare that his mental affliction is but temporary and in no way serious. Young Davis has had stomach trouble for some time and his physicians have been treating him for gastritis.

**SUPERINTENDENT JOKISCH RESIGNS.**

Virginia, Ill., Sept. 11.—Prof. H. J. Jokisch, of Beardstown, resigned the superintendency of the city schools there, to accept a similar position in Hinsdale, Ill. Professor Hutton, the high school principal, in the same school, was advanced to the position of superintendent.

The Northwestern Bohemian Building & Loan association, of Chicago, was yesterday incorporated by the state auditor of public accounts. The capital stock is \$1,000,000 and the duration of the franchise is fifty years.

**COSTLY GENEROSITY.**

Early one morning recently before inspecting some regiments on the maneuvering ground the present "Moltke" of the German army, Count Haeseler, went into the regimental canteen and asked for 5 cents' worth of bread and sausage, such as is supplied to the ordinary soldier. The man in charge thought he would do himself a good turn by handing the general an extra large piece of either luxury. Later in the morning, when halt had been called, the general ordered the soldiers to produce the rations supplied by the canteen for 5 cents. Naturally those shown were not of such satisfactory dimensions as had been sold to the chief. He said quietly: "Take your rations back to the canteen and tell Herr M. that 'Count Haeseler commands him to give each of you as large a portion as he had himself for the same money. My 5 cents is not worth more than yours."

**The King's Coffee.**

King Edward is becoming an inveterate coffee drinker. Wherever he goes his Egyptian coffee maker, Emin Abraham, follows with his little coffee mill and after luncheon and dinner prepares a special brew for his majesty and the fortunate few who are privileged to taste it. Emin is able to hold this little mill in his hands when grinding the berries, a particular kind, and the coffee is served in very small cups which have almost the appearance of egg cups. It is of course served by Emin himself in all the glory of oriental drapery. The people who have tasted the king's coffee are very few, and not all of those admire the flavor of it, though none would dare to say so, knowing his majesty has such a high opinion of its quality.—London Tatler.

**The Pearl of Peacemakers.**

Before the Spanish-American war there were numerous conferences between the leaders of the senate and house in Washington, usually held at the residence of some cabinet member.

At the most exciting stage Senator Allison of Iowa, the great compromiser, came into a conference where there were a dozen of the biggest men in the government.

"Well, Allison," said Secretary Hay, "which side have you been helping today—those who want war or those who do not?"

Senator Allison rubbed his hands. "I have been doing a little for both," he said.—Saturday Evening Post.

**Steel Trust Row.**

That portion of Fifth avenue, New York, which is often referred to as "Steel Trust row" attracts attention because of the splendid entrances on many of the mansions recently erected there. Wooden doors have given way entirely, bronze, iron and polished steel having been substituted. Many of these homes have entrance ways costing \$10,000 or more. A well known architect says that \$1,000,000 a year is being spent in this way on fine New York residences.

**Make a Note of This.**

Now look over your \$5 bills and see if you have any of them issued, presumably, by the Fourth National bank of Boston, check letter A, series of 1882, Tillman register, Morgan treasurer. If you find among them any such, bearing a few red ink imitation lines instead of the silk fiber of the genuine paper, you may conclude that they are the photographic counterfeit recently discovered and govern yourself accordingly.—Boston Herald.

**Rockefeller's Sport.**

John D. Rockefeller's taste for finance does not stop at his office door. The favorite games which enliven the home evenings of which he is so fond are of a sort requiring mathematical skill and quick thinking. As both Mr. and Mrs. Rockefeller are strongly opposed to money stakes, the oil magnate often offers little prizes instead to such players as are clever enough to excel in these financial sports.

**Don't Bitch!**

When you get a prospectus of a mining scheme in an elegantly embossed cover, printed on high class paper and in the most artistic fashion, giving the names of prominent financiers, statesmen and merchants as references and the most plausible and glittering inducements to invest, don't be fooled. Drop the bait in the wastebasket and pursue the even tenor of your way.—Troy Press.

**Horrible Thought.**

"Here's an astrologer who predicts that King Edward is shortly to pass through a lot of trouble, a dark cloud hanging over the empire. Some horrible calamity, don't you know?"

"I'll bet Alfred Austin is writing another ode."—Life.

**HINTS FOR FARMERS**

**Caring For Manure.**

While it is always best, when practicable, to get the manure accumulations out on the land as fast as made, there will always be times on every farm when it is not possible to do this, and some means should be adopted to prevent the waste of the manure as much as possible. A recent bulletin of the Ohio station tells of experiments there made in the preservation of manure with the addition of various substances. Manure from highly fed cattle that had been thrown into the open yard was divided in the spring into four parcels. On one lot pulverized phosphate rock or "floats" was dusted as it was piled; on another lot kailit or crude potash salt was scattered, and on the fourth gypsum or land plaster was applied, all these materials being used at the rate of forty pounds per ton of manure. At the same time four other lots were treated in the same way, the manure being taken from box stalls, where it had been allowed to accumulate under the feet of animals. The different lots were applied as a top dressing to corn and wheat with a manure spreader, putting four to eight tons per acre. It was found that acid phosphate appeared to be the material producing the largest and most profitable results as an addition and preservative of the manure, but it was also indicated that the pulverized floats may prove to be an economical material for the purpose. The yields were uniformly larger and the increase due to the addition of preservatives smaller in case of the still manure than in the case of the open yard manure, thus showing that the manure in the stalls suffered less loss than that in the open yard.—Practical Farmer.

**A Bitter Disappointment.**

It is reported that the city boys from the east who went west to help out with the harvest work were much disappointed. Probably they were. Their ideas of farm life were gained from operas or novels, which are full of pretty milkmaids, new mown hay, golden grain, sweet breathed cattle, flowery fields and shady brooks, with dressed up young people to enjoy these things and work a little on the side. The sweating is always done by somebody in the background, who occasionally appears and talks a New England dialect of seventy-five years ago. These young fellows from the east didn't realize youth's bright dream. The rude farmers with ten cent straw hats and sweaty shirts expected them to go right out in the sun, without awnings or parasols over them, and actually labor. Yes, sir, and on many of the farms there were no automobiles to take them to and from the fields, no electric fans, no soda fountains, no golf links, and dinner consisted of only one course! Who can blame the carefully nurtured cross country runners, rowing champions, football players and golf ball chasers for not wanting to work under such disadvantages? But their experience may be valuable, for it may lead those who know nothing about it to realize that farm life is real and earnest and sometimes actually strenuous.—Stockman and Farmer.

**The Bull Weevil.**

Reports concerning the cotton boll weevil are conflicting and consequently not to be relied on, for we really know not what or what not to believe. The weight of testimony, however, is to the effect that the pest is not doing as much business as it was feared he would. This may be because the cotton is late and small and there is not much work for the weevil to do. All over south Texas there are weevils, perhaps awaiting the development of their favorite host plant. But it is useless to speculate, for we know not what a week may bring forth. Let the fight against the weevil proceed.—Dallas Farm and Ranch.

**Birds, Insects and Fruits.**

There are thousands of fruit growers who for years accepted the statement that birds destroy injurious insects as a complimentary ticket into the cherry trees and fruit patch. Finally they began to count the cost. They find that many of the birds destroy so much fruit that they cannot possibly offset the damage by killing insects. With many of us it is far cheaper to kill the insects than to feed the bird. It is time to revoke their free pass.—Rural New Yorker.

**To Fertilize Southern Soil.**

To make your soil fertile gradually deepen the soil until it is at least fifteen inches deep. Plow under all the corn and cotton stalks, grass, trash, pea vines, etc., in the fall. Plant cotton one year, corn and peas second year, oats followed by peas third year, and then cotton again. Keep plenty of stock to eat the forage, and save the manure and put it on the soil. Keep something growing on the land at all times.—Southern Farm Gazette.

**Corncranks For Feed.**

There is enough digestible food in the corncranks now on the fields in Tennessee to winter every horse and cow in the state if the stalks be cut when the grain is some two hard for roasting ears. Cut the corn when the blades are yellow up to the ear. Shredded corncranks are worth as much per ton as timothy for stock.—Southern Agriculturalist.

**Hogs' Bones.**

"Fine bone" in hogs has been exploited altogether too much, says an exchange. A small boned hog is a weak hog. A large, healthy, vigorous hog must have large bones, strong muscles attached thereto, for muscle is meat, and meat is what hogs are grown for.

**NEW SHORT STORIES**

**He Holds His Job.**

Eugene H. Plumacher of Tennessee has been consular agent at Maracaibo since 1875 and consul since 1883. Many patriots who desired to serve their country for the \$2,000 salary Consul Plumacher enjoys have gone to Maracaibo, but none has remained. Plumacher attends to that, according to the Saturday Evening Post.

At the state department in Washington they say when a ship arrives bringing a consul appointed to Maracaibo Plumacher is on deck with effusive greetings.

"My dear sir," says Plumacher, "I extend to you the heartiest of welcomes. I— Then, as if struck by a sudden thought, Plumacher withdraws the hands he has outstretched and says, "But no, I must not touch you, for I have just returned from officiating at the last sad rites for two dear friends who died of the yellow fever."

The consul shudders. Later in the day, after he has dined with Plumacher, they take a stroll. The newcomer sees a row of graves, each decorated with an American flag.

"Do they decorate the graves of soldiers here too?"

"Oh, no," replies Plumacher. "Those are not soldiers. There rest the remains of several fellow countrymen, each of whom came here to be consul. They all died of the yellow fever, and I strive to honor their memories."

That is enough. The next ship takes the quaking patriot home, and Plumacher settles down to the routine of official life until another ambitious successor arrives.

**One on Senator Hoar.**

Senator Hoar was the unconscious hero of an incident which marked the commencement exercises at the State University of Iowa. The senator delivered his address in a tent, and his manuscript threatened to blow away.

Colonel George R. Burnett of the United States army borrowed a knife from the Rev. Dr. George L. Cady, chaplain of the university. This was an improvised paper weight the colonel

placed upon Senator Hoar's manuscript. At the close of a particularly eloquent period Mr. Hoar's hand came in contact with the knife, and he thrust it into his trousers pocket. The audience, having noticed the incident, burst into laughter. The speaker said something about the "feeler never seeing the point of a joke" and proceeded with the address.

Later the senator was reproached by Dr. Cyrus Northrup, president of the University of Minnesota, for "preaching honesty to the boys of Iowa and then writing them such an example of dishonesty." Then the affair was explained, and Senator Hoar drew

forth the "borrowed" knife and a knife case as well. The latter contained an exact duplicate of the instrument he had taken.

Senator Hoar had carried the duplicate of the borrowed knife continuously ever since he received it, forty years ago, from his wife.—Indianapolis Journal.

**A Speedy Horse.**

Harris Cohen, the Baxter street clothier, whose recent death revealed the fact that the money he had made in business had all been lost in horse racing, was anything but an Irishman, yet frequently he made bulls.

One of his bulls concerned a horse he had just bought. A man said this horse was a poor one, said it could not compare with a certain animal of his own.

"Rubbish!" Cohen retorted. "Rubbish! Why, that horse of mine can stand still faster than yours can gallop."—New York Press.

**The Conscientious Skipper.**

All the gossip periodicals are full of anecdotes about the late Cardinal Vaughan. One of the best is in Household Words, and it tells how as Father Vaughan the late prelate visited an American war vessel, where the captain thought that the chaplain was a Baptist, though there was some doubt on the point. "Then do you attend his religious services?" inquired the future archbishop. "Guess I do, father," was the reply. "The government pays this man to pray, and you bet I see he prays."—London Daily News.

AT THE GRAND TO NIGHT.

"Sweet little Irene, Duckett is coming back." That is what so many of our ladies are saying. She was an old school mate of theirs, and a Jacksonville girl. She comes back as the leading emotional actress in that splendid romantic scenic production, "A Royal Slave." We knew her a sweet and lovable little school girl; but America knows her from ocean to ocean as one of the bright gems of the dramatic stage. Do not fail to go and see this beautiful Jacksonville girl and her finished art work and then go home and be proud that you are her townsman. The mother town borrows lustre from her children of real genius and Irene Duckett is one these few. Grand opera house Saturday matinee and night.

West Robison, residing near Alexander, recently had a well dug on his place by Willis McDonald, which certainly has a most remarkable flow of water. McDonald dug twenty-two feet and stopped work at 5 p. m. Thursday, no water appearing. At 7 o'clock Friday morning there was nine feet of water in the well. Three men, using horse power, started to pump the well dry and at 4 o'clock Friday afternoon had gained four feet on the water.

## GAVE MATINEE

### SECOND EVENT OF DRIVING CLUB IS A SUCCESS

Many People Attended and Enjoyed a Good Racing Card—Fabiola Wins Free for All Pace—Other Events.

The second matinee of the Gentlemen's Driving club was held at the fair grounds Friday afternoon and was a most successful event. Fully 1,000 people were in attendance and while the track was a little spongy it was quite fast and the time made was good.

The afternoon was unmarred by accident and the card of five harness races, one running race and two exhibitions in the show ring was pulled off promptly and the crowd present went home after having witnessed a most interesting program.

F. L. Sharp, George Beckman and Dave Neal acted as judges and the timers were Gates Strawn, W. A. Masters and A. J. Wright, of Springfield. Dr. J. W. Sperry acted as starter and the marshals were Jack Legerman and Capt. John E. Wright.

Jeffries' band was on hand and kept the crowd in a good humor between heats. The next matinee will be held Sept. 24. The races:

GREEN PACE.

The races were called promptly by Starter J. W. Sperry and the first race had four entries and four started. Easter Hal (Biggs) drew the pole, Unknown (Crabtree), second; Hal Askew (Sibert), third, and Silver Lady (Corrington), third. On the third score the horses got the word and Unknown stepped right to the front at the first turn and was never headed. Easter Hal left his feet and Hal Askew stepped into second position. Silver Lady also went up as she rounded the turn and in this order, several lengths apart, the horses paced the heat. The time was 1:17½.

In the second heat three times down was a plenty and they went away with an even start. Sibert with Hal Askew commenced to whip as they went under the wire, with the result the Unknown was thrown off his feet, as was Easter Hal. Unknown was pulled to a standstill at the first turn and dropped into fourth place. Silver Lady went to the second turn well, but broke when Unknown commenced to overhaul her and the latter again left his feet and was again brought almost to a standstill. In the meantime Sibert, with Hal Askew, was whipping home in good style, with Easter Hal pushing him close for second place. They finished in the order named, but a howl was made in the betting ring for the manner in which Sibert wielded the whip. The time was 1:19¾.

In the third heat Hal Askew went to the front and was never headed. Unknown came strong down the back stretch and was overhauling the bunch when he made a standstill break and it was all day with him. He finished fourth. Sibert, with Askew, came home as he pleased with Easter Hal second and Silver Lady third. Time 1:22. First money went to Hal Askew; second to Unknown.

Hal Askew (Sibert) ..... 2 1 1  
Unknown (Crabtree) ..... 1 3 4  
Easter Hal (Biggs) ..... 3 2 2  
Silver Lady (Corrington) ..... 4 4 2  
Time—1:17½, 1:22, 1:22.

3:30 TROT.

The second race was the 3:30 trot, with five starters. Lenn (Vossler), held the pole; Preman (Russell), second; Coultas Girl (Huffaker), third; Jennie K (Killiam), fourth; Billy (Craig), fifth. It took six scorings to get the bunch away and then the start was anything but good. Lenn was up before the first turn and Preman was never in it. Coultas Girl went to the front and was closely followed by Jennie K, with Billy coming fast. At the second turn Billy

was in second place, with Coultas Girl going fine. It was a close race down the back stretch and Jennie K was close behind the leaders. At the third turn Billy left his feet, but was quickly settled. Coultas Girl was still coming strong. As they entered the stretch Billy bobbled a little, but caught quickly and down the home stretch they came. Craig urged Billy and the clip was a little too fast, as the sorrel fellow went up, but settled just as they went under the wire neck and neck. The heat was given to Coultas Girl, as she trotted without a skip the entire distance. The others finished as mentioned. Time, 1:22.

In the second heat it again took six scorings for the bunch to get away. Billy stepped to the front as they passed the second turn. Lenn was up and dropped out of the heat. Preman trailed as before. On the back stretch Billy went up, but settled quickly. The argument was all between Coultas Girl and Billy and on the fourth turn Coultas Girl and Billy were together and both broke with the result that Billy gained the lead and came home easily in 1:21. Jennie K was third.

The third heat was easy for Coultas Girl, as she trotted a perfect mile while Billy broke four times and although he led to the third turn, here he was easily passed by the bay mare, who came home in good fashion with the heat and the race. Billy was second; Jennie K third, and Preman, fourth. Lenn was withdrawn. First money to Coultas Girl; second money to Billy. Time 1:21¾.

Coultas Girl (Huffaker) ..... 1 2 1  
Billy (Craig) ..... 2 1 2  
Jennie K (Killiam) ..... 3 3 3  
Preman (Russell) ..... 5 5 4  
Lenn (Vossler) ..... 4 4 4  
Time—1:22, 1:21, 1:21¾.

FREE-FOR-ALL PACE.

The event of the afternoon was the free-for-all pace between Goldseeker (Benson), Fabiola (Wright) and Kitty R (Leggett). On the second time down they went away in good style. Fabiola left her feet on the first turn and Kitty R went to second place. Fabiola came back in fine form, however, and went like a bullet in the back stretch, passing Kitty R on the third turn, and closing on Goldseeker. As they came into the stretch Benson piloted Goldseeker perfectly, but Fabiola came too fast and won the heat with a burst of speed to spare. Kitty R was a close second and finished third a neck behind. The time was 1:11. Wright made a magnificent drive with Fabiola and won deserved applause from the crowd.

The second heat for the free-for-all decided the race. Goldseeker left his feet before the first turn was reached and was out of it. Kitty R stepped to the front and led down the back and half way down the home stretch. Fabiola came right after Kitty and as they entered the stretch was going some. It had been a horse race every inch of the way and it was a hair-raising finish. Both horses came strong, but Wright piloted Fabiola to the front and went under the wire a winner by a quarter of a length. The heat was a magnificent exhibition of horse racing and was thoroughly enjoyed by the crowd. Time 1:07¾.

First money went to Fabiola. Second money was divided between Goldseeker and Kitty R.  
Fabiola (Wright) ..... 1 1 1  
Kitty R (Leggett) ..... 3 2 2  
Goldseeker (Benson) ..... 2 3 3  
Time—1:11, 1:07¾.

SPECIAL PACE.

Only three started in the special pace. Lady (Jericho), drew the pole; Red Chief (Woods), second, and Midnight (Massey), third. After repeated scorings the word was given and Midnight was pulled up after going under the wire. It was a farce between Lady and Red Chief, and the latter won five lengths to the good in the time of 1:15.

There was considerable delay in getting them away in the second heat and the horses hung well together until the home stretch was reached, when Midnight went up and it was all over with him. He had passed Red Chief at the third turn, but Corrington kept coming just the same and came home in fine style without a hitch or jump. The time was 1:11¾. First

money went to Lady; second money to Red Chief.  
Lady (Jericho) ..... 1 1 1  
Red Chief (Woods) ..... 2 2 2  
Midnight (Massey) ..... 3 3 3  
Time—1:15, 1:11¾.

2:30 TROT.  
The last race was for the 2:30 class horses, with four starters. Gin (Rutherford), drew the pole; Grace Wilson (Huffaker), second; Cora J (Lohman), third, and Wilkesroe (Vossler), fourth. Gin went up before the first turn and Vossler went right to the front with Wilkesroe. Grace Wilson took second place, but at the second turn broke badly and trailed the rest of the way. Gin settled and went right after Wilkesroe, closely followed by Cora J, driven by Dave Neal. In this position they came home, Vossler winning easily, with Cora J and Gin fighting for position. The time was 1:15½.

The second heat was easy for Wilkesroe, but the behavior of Gin made repeated scoring necessary. Spaulding drove Grace Wilson this time and although she made two breaks he settled her in fine fashion and drove a good third. Cora J came well, but was not fast enough and took second place in the heat and race. The time was 1:12½. First money to Wilkesroe; second money to Cora J.  
Wilkesroe (Vossler) ..... 1 1 1  
Cora J (Lohman) ..... 3 2 2  
Gin (Rutherford) ..... 2 4 4  
Grace Wilson (Huffaker) ..... 4 3 3  
Time—1:15½, 1:12½.

RUNNING RACE.

The running race—half mile dash—was easy for Hidden Mystery (Green) and Trollop (Harlow) was never in it. The time was :54¾.  
Hidden Mystery (Green) ..... 1 1 1  
Trollop (Harlow) ..... 2 2 2  
Time—:54¾.

SHOW RING.

The show ring exhibition was for saddle horses. The following owners had horses entered: R. L. Pyatt, J. B. Corrington, J. W. Woods, J. W. Arnold and Cupid Mosley. O'Bannon Smith, of New Berlin, acted as judge and first prize went to J. B. Corrington, and second prize to J. W. Arnold.

In the high school class there were only three entries: J. B. Corrington, Cupid Mosley and Logan Black (pony). The horses were judged by O'Bannon Smith and first prize went to Corrington, second to Mosley.

NOTES.

B. F. Wright, president of the Springfield Driving club and owner of Fabiola, witnessed the races. He was naturally very much pleased over the victory of his horse.

Dave Neal, of Roodhouse, the driver of Buck Allen, owned by Frank Lohman, acted as judge part of the time and drove Cora J in the 2:30 trot. Buck Allen is now at Alledo, where he starts next week in the Mercer county races.

William McConnell, of the Springfield Journal, was an interested spectator.

Buck Hunter, of Medora, a well known starter, and Horace Haywood, of Medora, driver of Dandy Jim, were here for yesterday's races.

COMING.

Miss Rachel Acton, who plays the part of Chiquita, the street singer in Havlin & Garen's "The Stain of Guilt," is considered one of the handsomest young women in the Jewish society of St. Louis. Her father is a wealthy merchant and her family was at first decidedly opposed to her going on the stage. Her natural talent, however, asserted itself and she finally won her parents' consent. She is not yet out of her teens but has already played the leading role in a number of productions. Manager Garen saw her while playing in "Mexico" and was at once struck with her fitness for playing the part. Her success in the role has proven the wisdom of Mr. Garen's selection. At the Grand Tuesday, Sept. 15.

If you have an umbrella, you know how  
useless it is when it rains. You know how  
the sun from beating down directly  
overhead, and it is an apparent  
protection for the rays of the sun  
which are refracted with almost  
vertical intensity. They are prac-  
tically collected under the dome of  
the umbrella, and sunburn is the re-  
sult.  
It has been found by experiment  
that a person will be more severely  
sunburned under an umbrella on  
the water than he will if entirely  
unprotected from the sun's rays.

**HIS LIFE SAVED BY CHAMBER-  
LAIN'S COLIC, CHOLERA

"B. L. Byer, a well known cooper  
of this town, says he believes Cham-  
berlain's Colic, Cholera and Diar-  
rhoea Remedy saved his life last  
summer. He had been sick for a  
month with what the doctors call  
bilious dysentery and could get no  
relief to do him any good until he tried  
this remedy. It gave him immediate  
relief," says B. T. Little, merchant,

**A DESIRABLE LINE.**  
The Nickel Plate road, with its  
eastern connections, the Delaware,  
Lackawanna & Western and West  
Shore and Boston & Maine railroads  
—is considered by those who have  
patronized it as a most desirable line  
between Chicago and New York, Bos-  
ton and other eastern points, and  
takes its place among the first class  
lines leading eastbound from Chicago.  
It is operating three through first  
class trains, all daily, and equipped  
with modern improvements, for the  
convenience and comforts of the trav-  
eling public, and has succeeded, to a  
remarkable degree, in pleasing its  
patrons, growing in popularity every  
day. One of its attractive features  
and thoroughly appreciated by the  
traveling public, is its dining car ser-  
vice, meals being served on American  
silver-plate, ranging in price from 35c  
to \$1.25; also service a la carte. Colored  
porters are in charge to look after the  
comfort of passengers in coaches, and  
especially to assist ladies traveling  
with children. No excess fare on any  
train on Nickel Plate road. All pas-  
senger trains arrive at and depart  
from the LaSalle street station, Chi-  
cago, the only passenger station in  
Chicago on the elevated loop. When

**STOMACH TROUBLE.**  
"I have been troubled with my  
stomach for the past four years," says  
D. T. Beach, of Clover Nook farm,  
Greenfield, Mass. "A few days ago I  
was induced to buy a box of Cham-  
berlain's Stomach and Liver Tablets.  
I have taken part of them and feel a  
great deal better." If you have any  
trouble with your stomach try a box  
of these tablets. You are certain to  
be pleased with the result. Price 25  
cents. For sale by all druggists.

**A NATURAL RESULT.**  
It is very reasonable to suppose  
if the foundation of a structure was  
removed that the building itself is  
bound to come down. This same prin-  
ciple can be applied to disease. Take  
removal of the cause of sickness, and  
the illness leaves of itself. Dyspepsia,  
indigestion, headache and bilious-  
ness have their foundation in stom-  
ach disorders. Remove this weakness  
and the other symptoms are no more.  
There is one cure for this that all  
druggists sell for 25c per box, it is  
called Dr. Gunn's Improved Liver  
Pills. They get right at the begin-  
ning of these diseases and make the  
cure by taking away the cause of it.  
We will send a small box free by mail

**Wanted to Help Mr. Hanna.**  
Mrs. J. M. McCormick, who was  
Miss Ruth Hanna before her recent  
marriage, tells with good effect a  
number of stories about her distin-  
guished father.  
According to one of these stories,  
Cyrus Townsend Brady was talk-  
ing about the itinerant preachers  
of the past.  
"These men," he said, "were rug-  
ged and sincere. Their minds, if  
they were coarse, were also strong.  
Their eloquence was sometimes pow-  
erful. Sometimes it was amazing."  
"There was a notable itinerant  
who once preached on the 'Glory of  
the Saints,' and the description of a  
saint's glory that he gave in this  
sermon deserves, I think, to be per-  
petuated. This is the description,  
word for word:  
"Who, my brethren, can describe  
the glory of a saint? Why, nothing  
on earth can liken it: If you drill a  
hole through the sun and put it on  
your head for a crown and split the  
moon, and put the pieces on  
your shoulders for epaulets, if  
you tear down the stary curtain of  
the skies and wrap it round your  
body for a robe and ride to heaven  
on the lightning wings of the tem-  
pest, this will be nothing to the  
glory of the saints."

**"I'M THE BOY FOR YEZ."**  
An Irishman some years ago entered  
Mr. Hanna's office, took off his hat  
politely and said:  
"The top of the mornin' to ye,  
Misther Hanna. 'I've been told  
ye're in want o' help."  
"I have very little to do," Mr.  
Hanna replied, with a quiet smile of  
humor.  
"Then," said the Irishman, "I'm  
the boy for yez. It's very little I  
care about doin'. Sure, it's the mon-  
ey I'm after."—Detroit News-Tribune.

**A Generous Secretary.**  
A curious story is told of Lord  
Rowton in his younger days as Mr.  
Montagu Cory when he was secre-  
tary to Lord Beaconsfield. In 1868  
came the Fenian outbreak, with the  
Clerkenwell explosion and the con-  
sequent desolation of the neighbor-  
hood. The private secretary walked  
across from St. Arthur's club to a  
fashionable harness-maker's in St.  
James' street and was at once fitted  
with a strong leather girdle from  
which depended two enormous pocket-  
ets. Thus equipped, he drove to  
Downing street to see his chief. "In  
heaven's name, what is this?" was  
the exclamation of surprised salute.  
"I am going," replied the secretary,  
"to distribute largess of silver and  
copper to the Clerkenwell sufferers.  
I have a hansom waiting below.  
When I have placed some small  
change in these pockets I shall drive  
off."

**It was of Lord Rowton that**  
Lord Shaftesbury said at his eleva-  
tion to the peerage: "Caligula made  
his horse a consul. I really see no  
reason why Lord Beaconsfield  
should not create his private secre-  
tary a peer."

### R. AND S. MASONS

The eighth mass convention of the Grand Council of the state of Illinois, Royal and Select Masters was held at Ottawa recently. The session was a most interesting one in the history of the craft, lasting an entire day and closing at a late hour at night. Work was exemplified in both Royal and Select Masters degrees by grand and past grand officers of the state. The grand master of the state, John C. Hallenbeck, called this convention on petition of several of the subordinate councils. After the work of the convention and the work of the degrees closed, there followed a most sumptuous banquet, which was served by the ladies of the Eastern Star chapter of that city, and in behalf of Oriental Council, No. 63, R. & S. M. Its three illustrious Master, F. A. Hathaway, presided at the banquet, and several amusing and instructive talks were made by the distinguished guests.

The following grand officers were present: Most illustrious Grand Master John C. Hallenbeck, of Chicago; Right Illustrious Deputy Grand Master A. M. Hallowell, of Jacksonville; Grand Principal Conductor of the Work C. M. Hollandsworth, of Canton; Grand Chaplain Henry L. Hopkins, of Chicago; Grand Marshal W. C. Road, of Chicago.

There were also present the following past and most illustrious grand masters of the state: George M. Moulton, of Chicago; Fred E. Hoberg, of Peru; S. J. LeFevre, of Gibson City; William L. Milligan, of Ottawa, and W. B. Carlock, of Bloomington.

There were about twelve of the subordinate councils represented at this meeting, and there was a large number of the craft in attendance and particularly from the northern part of the state.

### IN MISS WINTERBOTTOM'S HONOR.

Mrs. Charles E. Dickson and Mrs. H. B. Carriel were the hostesses at a sewing given Friday afternoon at the Dickson home. Very charming hostesses they were, too, for the party was one of the prettiest and most enjoyable of the season. There were one hundred or more guests and the time was spent on the porch and lawn—and the unusual number of handsome gowns made a very attractive picture. Miss Winterbottom received with Mrs. Dickson and Mrs. Carriel, as did Miss Lucille Jones, of London, Ohio; Miss Myra Moorehead, of Franklin, Pa., and Miss Grace Burnett, of Mendville, Pa. Miss Isabel Carriel and Miss Margaret Clampt assisted in entertaining. The refreshments were charmingly served.

At 6 o'clock Mrs. C. G. Rutledge entertained elegantly at dinner in honor of Miss Winterbottom. The other guests were: Misses Burnett, Moorehead and Jones; Messrs. Howard Carriel, E. M. Dunlap, W. T. Capps and Edward Flannigan.

### MR. VAN PELT MAY LEAVE.

Part of the Methodist ministers of Jacksonville will leave here Tuesday for the annual conference at Quincy and others will go Wednesday. It is of course impossible to predict with certainty whether or not any changes will be made in the churches of this city and county. It is rumored, however, that Rev. J. R. Van Pelt may not return to Brooklyn, but may be given larger work elsewhere. Mr. Van Pelt is one of the strongest of the younger ministers of the conference and is a man of scholarly attainments. He studied at Northwestern and the Boston School of Theology and subsequently spent two years in Europe. Mr. Van Pelt began his work with this conference sixteen years ago and later went to Denver to serve in the Denver School of Theology. He is a minister who is certainly fitted for preferment.

Family troubles and illness is supposed to have unhinged the mind of Mrs. Costella.

### ANNULLED CHARTER.

New York, Sept. 11.—President Frank Buchanan of the International Association of Bridge and Structural Iron Workers to night annulled the charter of local No. 2, of the Housewives and Bridgemen's union, the organization of which Sam Parks is the virtual head. This action, he says, was taken because the local violated an agreement between the International union and employers.

### FIGURES IN DIVORCE SUIT

Story of Mrs. Isabel Mulhall Delmont's Unhappiness—Well Known Here.

Friday's Chicago Examiner devotes two half columns, together with a double column picture to Mrs. Isabel Agnes Delmont, formerly of St. Louis, who has been divorced from her husband, Albert Royal Delmont, the St. Louis young "Monte Cristo."

The article reads: "A romance that eight years ago stirred the exclusive west end society of St. Louis as the aristocratic circles of the old southern town has seldom been stirred is having its ending in a Chicago divorce court."

"The bill filed by Mrs. Isabel Agnes Mulhall-Delmont, asking for absolute divorce from Albert Royal Delmont, discloses the setting of the financial sun of the man who stormed the sacred portals of St. Louis society and bore away as his prize Bell Mulhall, the greatest beauty of her day, and one of the wealthiest heiresses of the town."

"Miss Mulhall was the daughter of Col. John Mulhall, millionaire ranchman, clubman and society leader. In 1895, when she was at the height of her reign as a belle, Albert Royal Delmont burst upon St. Louis and within a month he had been dubbed the modern 'Monte Cristo' and the town was ringing with his wonderful financial deals."

Mrs. Mulhall, mother of Mrs. Delmont, came to Jacksonville last winter and took rooms at the home of Walter Watson on North Church street, where she lived during the winter and until late this spring. While residing here her daughter, Mrs. Delmont, visited several weeks with her and became acquainted with many people here. She was an actress at that time and was playing with a company in Chicago.

In the Planters hotel in St. Louis, just at the head of the first flight of stair leading from the main vestibule, hangs a large portrait of a young lady, and this is Mrs. Delmont, whose divorce is noted above. At the time this picture was painted she was one of St. Louis' most popular young society belles and her father, Col. John Mulhall, was one of the most wealthy men in St. Louis. The story of her engagement to Delmont is most romantic, he having first seen the picture at the Planters hotel when he vowed he would make the lady his wife. He had an unlimited bank account and spent money lavishly, finally getting himself into the society circles of St. Louis, when he met Miss Mulhall, who later became his wife. They lived in the greatest luxury for a short time, when his funds apparently gave out and they left St. Louis, going to Chicago, where she went upon the stage, and it is said he is now a clerk in a State street department store.

There is much mystery surrounding the divorce proceedings, for in her bill she alleges desertion, but it is generally known that the Mulhall family have been trying to bring about the divorce for some time.
